

Dairy Queen Ice Cream

The top place to eat Ice Cream

By: Alex Burich and Avery Hilvert

Dairy Queen is one of the most popular ice cream places to go to, especially here in Powell. There are lots of other ice cream places in Powell such as Handel's, Graeters and Whitts. Dairy Queen has always been liked but we think it deserves more attention than the other ice cream shops. Dairy Queen is the best to get ice cream in Powell because they have lots of extra add-ins you can include, you can be creative with your ice cream order, and its location makes it a great place to hangout.

Dairy queen provides ice cream, milkshakes, food, and drinks on their menu. They provide everywhere from regular ice cream cones to milkshakes and their famous blizzards. Their blizzards have been a staple on the menu since its introduction in 1985, that year Dairy Queen sold more than 100 million Blizzards. Most ice cream places don't offer as much as they do which makes it more enjoyable for everyone. Their famous blizzards are your choice of ice cream with almost any candy you can think of to add in. It gives people creativity to try new things with ice cream and to have their favorite things in one. They are also known for their soft serve cones. They have regular vanilla and chocolate but they also have their chocolate and vanilla swirl which means you can have both flavors in one

cone. They also have food options if you feel like getting more than just ice cream. Dairy Queen also offers lots of different food options. Families can get food and dessert all at one place.

Another plus to Dairy Queen is the location of it. It is super close to everything so it doesn't take long to get there. It is also right by a park and baseball fields. That's Perfect for families in the summer who want to get ice cream then let their kids run around and have fun. The Dairy Queen line is usually really long but the line goes super fast and the workers are really good with making it go fast but also making sure your order is right.

This was taken more recently at the Powell Dairy Queen. It shows the nice outdoor seating that Dairy Queen provides so you can enjoy the weather while eating your ice cream." I love sitting outside and eating my ice cream, it is one of my favorite things to do in the summer and I'm glad Dairy Queen has an outdoor eating area so I have the option to do that," said Morgan. Ice-Cream Opinion

Ice-Cream in Powell, Ohio

Some people may say that Handles is better because they have lots more flavors and its traditional ice cream and not soft served. Even though Dairy Queen doesn't have as many flavors, handles doesn't have as many creative options with adding in candy and your own mix of add ons.

Therefore, Dairy Queen is the best place to get ice cream in Powell because of all the different varieties of foods and ice cream options and because of the location and how it is super close to everything and has fun things to do right next to it.

This was taken last summer during a perfect night in Powell. Even when it's cold outside people still like to go to Dairy Queen. "I love to go to Dairy Queen year round it's never just a summer spot for me," said Mia. Photo Courtesy of Avery Hilvert.

These two bizzards are some of the peoples favorites. There are the Reese's Peanut Butter Cup Blizzard and the Chocolate Chip Cookie Dough Blizzard. "The Cookie Dough Blizzard is my favorite Blizzard that Dairy Queen makes, it is my go to order," Grace said. Photo Courtesy of Avery Hilvert.
