

2023 Prom:

A Night Filled with Memories

By: Grace Boettcher

This past month Olentangy Liberty had their 2023 prom. I went to this event and I have to say, it was super entertaining. I saw a lot of my friends there and it was fun to see everybody dressed up and to look at peoples dresses. There would be a few things I would change about it, but other than that it was a very good event.

The music at the dance was moderately impressive. At the beginning they were playing songs but it was so loud you couldn't hear the words.

About an hour in, they played the same couple of songs on repeat and it got very irritating. Even though the songs were better than what they were playing at the beginning, they weren't songs that someone could dance to. Towards the end they played very good music that made everyone want to dance. I remember dancing and singing with my friends and having a blast.

The theme of the dance was "A Night of Mystery". The decorations were somewhat matching what the theme was, but that was all. There were balloons all on the ceiling and after they announced the prom King and Queen, they fell onto everyone which was somewhat cool. There were tables in the lobby with some masks on them, a photobooth and a huge sign that said "Prom". No

one dressed up to match the theme and the only masks I saw were the ones used for decoration. I believe that if they chose a theme next year that's more realistic for our generation and ages, more people will dress up.

Overall, prom was a very fun night and I along with most other students thoroughly enjoyed it. It was super fun seeing everyone and if you are an upcoming junior or senior I recommend attending this event.

Above there is a picture of the Prom King and Queen. Jaxson Eckert and Bella Skoog.
